## An Important Matter to all.

There is nothing in the whole equipment of a farmer or the outfit of anyone who drives horses which needs so much careful consideration as does harness. Faulty harness often results in broken limbs, sometimes loss of life, smashed buggies and nearly always an injured horse.

You can only rely upon your harness being sound when you deal with a man who has had a long experience in selecting and buying his stock. We have bought harness for years but have never bought a better line than the one which has just arrived.

100 Sets of Team Harness, 50 Sets of Double Driving Harness. 50 Sets of Single Driving Harness.

A Specially Fine Line of Sleighs.

**A. SWENNUMSON, Bow Island, Alta.**

## Xmas Goods arriving Daily.

**We have a Choice Line of Useful Gifts.**

Call and see our Stock before you purchase elsewhere. By buying our Goods you not only save money---You receive the best quality of goods that can be purchased

### Town Council.

At a meeting of the above Council held in the Secretary's office last Thursday evening there were present—Mayor Dulaney, Councilmen Robertson, Hurlbut, Bratton, Ellsworth, Werts and Cotton.

The question as to when sub-division 2122 and 2123 was brought into the village was handed over to the solicitor to take up with the department.

The finance committee reported that Mr. Luckhardt had consented to audit the books of the town.

The fire, water and light committee reported that they had been unsuccessful so far in getting water.

An account of \$30.00, interest on old village debt, from the Bank of B.N.A. was ordered to be paid.

An application for a license for hauling coal from S. D. James was received and the license granted.

Gardner & Anderson, in applying for a petty traders' license, drew the attention of the Council to the fact that a large part of the licensing year was already past and asked for a rebate.

The application was received and it was decided to rebate \$10 making Gardner & Anderson's license \$15.

The license and police committee was requested to arrange the purchase of a new uniform for the chief of police.

The meeting then terminated.

### Ratepayers' Meeting

The first annual meeting of the ratepayers of Bow Island was held in the L.O.O.F. hall on Monday evening. In the absence of Mayor Dulaney, the chair was taken by Deputy Mayor F. Hurlbut. The Councilors present comprised A. F. Werts, J. M. Bratton, H. Robertson and W. P. Cotton. The ratepayers numbered between thirty and forty.

The first business consisted of reports from the chairmen of the various committees, namely:—Bylaw, R. Robertson; License and Police, A. F. Werts; Health, F. Hurlbut; Public Works, W. P. Cotton; Fire, Water and Light, J. M. Bratton. A statement showing the financial condition of the town was also rendered by the Secretary-Treasurer, W. A. Bateman.

Short addresses were afterwards given by various ratepayers upon matters affecting the town, these latter including J. W. Hurd, B. L. Janssen, P. E. Ladtke, Dr. Peterson, F. Henderson, J. Stuegel, J. W. Hopkins, H. E. Beattie, J. W. Campbell and others.

Upon the matter of providing fire protection, the consensus of opinion apparently seemed to be in favour of securing a chemical engine.

The question of obtaining an adequate supply of water for domestic use was also discussed but nothing new was brought to light.

seventeen people were more or less injured, two or three of them seriously. One will likely die.

The train was just on the last stretch of its run when the wreck occurred. Several passengers had boarded the train at Severn Peninsula, a few at other points along the line between that and Lettbridge. It was then that the people on the train were all sleeping. Suddenly, without a warning of any kind there was a terrible jolting and instantly followed a mighty crash. The engine left the rails and practically the whole train of seven cars followed. What a few moments before had been a line train of first-class cars, bowling along in the breaking daylight, was instantly

turned into a broken and twisted mass of wood, iron and steel.

Worst of all from every part of the wreckage screams of pain, screams of agony and groans from the dying endeavours could be heard.

Bodies of men, women and children were lying on the ground, many of them badly injured but the majority stunned and benumbed from the shock of force of the impact. When they were hauled through the windows when the crash came. Passengers who were sitting in the day coaches, sleeping or dozing, were the worse injured. Several of them were thrown with terrible force clear through the windows of the coaches.

## Hockey Club Meeting!

At the Meeting, held on Monday last, it was decided to commence work at once on the erection of the new rink. But skating has already started. That means you will want Skates, Hockey Sticks, etc.

We have Skates in all sizes, at all prices, ranging from 50c. to \$6.00, but the quality is the same throughout, the best. Our line of Hockey Sticks is a sure winner every time. They are the lightest, strongest and cheapest ever offered for sale in Bow Island.

The ratepayers' meeting on Monday night, although fairly well attended, was not productive in the sense that it brought out any new ideas for the Council's guidance. Not that the opportunity was not given. Nearly every member of the Council was present, and presented a report of the work undertaken by his special department, thus providing ample grounds to raise a discussion upon. If there was anything in those reports that the ratepayers would have preferred the searchlight thrown upon, then it was their duty, certainly their privilege, to have demanded it. By the strict silence maintained, however, one can only arrive at the conclusion that there was practically no piece of work that could be usefully considered.

In the Review's opinion, the absence of criticism was right if the point of view is taken that the work of the Council during the past few months was done conscientiously and in the best interests of the ratepayers. There should, however, be a somewhat more intelligent interest displayed, not only at the annual meeting, but also upon every other occasion where municipal questions are being discussed. The word "intelligent" is used advisedly, because how often does it occur in the reports of the Council during the past few months? It is used in connection with the report of the Town Council come up for debate, wrecked and torn to pieces by street debates, without an official effort having first been made to learn the reason why a certain course was pursued by their representatives in the local legislation. It is as much the duty of a ratepayer to make himself thoroughly acquainted with the needs of a growing town, and to take an "intelligent" interest therein—as it is the duty of his representatives.

The present members of the Town Council, entered upon their duties with a debt left over by the Village Council, and it was manifestly impossible for them to carry out any effective improvements, with an empty exchequer and a debit balance. It was an unfortunate beginning, but by withstanding the work was taken up with refreshing vigor, and wherever improvements could be effected they were carried into effect, but on the other hand, wherever economy could be exercised, the Council economized. Broadly speaking, the town has made material progress during the brief regime of the present Council, and the work is now prepared for the adoption of a programme of a much more progressive character.

MR. E. C. LUDTKE.  
Erected first brick block in Bow Island

### The Ludtke Block.

The rapid growth of Bow Island is better noted perhaps when one observes the many excellent buildings that are being erected by its enterprising citizens. Among the different stages which a town reaches in its progress not one is more interesting than at that period when it passes from the obscurity of village into that of a young and sturdy town. Bow Island is just now undergoing this transitory process, and evidence is not wanting that the process in this case will not be a slow one.

The new block just completed by Mr. E. C. Ludtke is unique from the fact that it is the first brick building to be erected in Bow Island, and for the reason deserves special mention. It denotes that a feeling of uncertainty with regard to the town's progress has given way to a perfect feeling of security so far as Bow Island's future is concerned. If it is true that the progress of a town always keeps pace

with the spirit of its inhabitants, then Bow Island has no need to fear the future. Upon every land activity in building is most marked.

Mr. Ludtke's new store is distinctly a step and lends a quite substantial appearance to the town, and in all probability it will mean the construction of other buildings of like nature.

### Prosperity.

Mrs. A. J. Adams will leave this week for Haldimand, Sask., where she will stay a short time and then on to Michigan. Mr. Adams will leave shortly, stopping off at Regina and P. Williams on business and then will join Mrs. Adams in Michigan, where they expect to live.

Mrs. J. W. Dene will leave for Weyburn, Sask., November 10th, and will be under the care of a physician for a short time.

Mr. A. B. Page and Mr. Claude Page left November 18th for Rochester, Minn. Mr. Page's health has not been good the past summer and an operation is deemed necessary.

Dieb—November 21st, infant daughter of Mr. and Mrs. John Herman.

Mr. Wan. Jones is collecting for the John Doree Pews Co. in the White, Winnipeg and Bow Island districts.

Mr. Heald and Miss Heald made a number of calls in the Prosper and Lacanette districts the past week.

Mr. Eric Erickson has returned to his home in the winter.

Mrs. A. J. Adams and Miss Jordan were callers at Mrs. Luncaster's Wednesday last.

Miss Nellie Henderson was at Prosper over Saturday and Sunday.

Mr. Wan. Henderson will leave the last of this month for Seattle, Portland and points on the coast.

Mr. Angus Shovey is a guest of his cousin, Mr. Marshall's, and Mr. Jones. He will leave this week for his home near Montreal.

Mr. and Mrs. W. J. Hackworth were business visitors in Winnipeg Wednesday.

Miss Hilda Carlson is a guest of Miss Clara Page a few days this week.

The Ladies' Aid Social held on November 22nd at the Prosper schoolhouse was a very successful affair from every standpoint and the numbers who were present so diligently to make it a success to be congratulated. The receipts realized from the admission fees and sale of goods, amounting to sixty dollars will be used to start a district library. The members of the Aid take this opportunity for thanking their friends, who so kindly assisted on the program, and others for their patronage.

The Aid will meet this Friday with their president, Mrs. Frank Craver, to consider the choice of books for the library.

### From the North.

Edmonton, Alta., Nov. 27.—Statistics compiled by Charles S. Hotchkiss, commissioner for Alberta, show that the population of this province has increased between 1901 and 1906, during the last fiscal year, as compared with 70,000 the year before. He estimates the present population of Alberta at 240,000, as against 222,228 shown by the last federal census. His reports indicate that one of every four housewives settles on farm lands. Many of the newcomers are experienced farmers from England, who bring a knowledge of mixed farming and dairying. Plans are under way to bring as many people as possible from Great Britain, where 200,000 men are ready but without sufficient funds to undertake the journey to western Canada. Mr. Hotchkiss said: "All that Alberta needs is more men and women."

Edmonton, Alta., Nov. 27.—Hon. C. R. Mitchell, minister of public works for Alberta, announced today he has received cable advice from England, repeating that Premier Sifton has succeeded in underwriting a provincial loan of \$5,000,000 on 4 per cent 10-year convertible bonds, underwritten in the London market at 97. The issue is described by London financial journals as the precursor of several important imperial loans to be floated shortly in England. The cable adds that the loan would have met with a favorable reception only the other direct Albertan loan, now on the market, is in 4 per cent debentures, issued in 1900 and payable in 1908, which are now quoted at par, but include five months' accrued interest, amounting to nearly 2 per cent. This loan refers to bonds for the telephone system.

## To the Citizens of Bow Island

There's only one thing to be said about Coal—you must have it. You've no use for the agent who has to wait weeks—while you are freezing—before he can deliver the goods, when you can get any quantity from 1 ton to 50 tons right here. We have a bin of 50 tons at the mine always ready for shipment. The quality is equal to Taber Coal and our prices away lower.

**BEST SCREENED - - \$4.00**

## An Item of Interest

The main thing to consider in purchasing coal is the amount of carbon contained, for that is what gives the heat and the more carbon contained the less amount of clinker and the greater heat given. Our coal contains a higher percentage of carbon than that from the Taber coal mines.

## Windy Ridge.

The Rev. Hould was a caller in this neighborhood last Friday.

Frank Ream visited Ed Ream Sunday.

Miss Jennie Murray called on Miss Ella Boles last Wednesday.

Mr. Henry Waite who was injured by falling down cellar at the Glider store at Winnifred sometime ago is able to be about again.

Mrs. Lewis Carlson returned from Lethbridge last Saturday where she has been having some dental work done.

The dance at the Murray Ranch last Friday evening was a perfect success.

Miss Jennie Murray was a caller at the Preskey home last week.

Mrs. L. Loken who has been ill for the past week is much better at this writing.

Mr. A. B. Page accompanied by his son Claude left Tuesday the 18th for Rochester, Minn. where he will undergo medical treatment.

E. Reams was in Winnifred Thursday.

Mrs. Dano who has been ill for the past few weeks left the 18th for Weyburn, Sask. where she will undergo an operation.

Mrs. Harold Norden was removed to the hospital at Medicine Hat last Monday, suffering from appendicitis.

## Fertile Plains.

Mr. and Mrs. J. Leach have gone to Minneapolis where they expect to spend the winter.

Miss Reid is attending Teachers' Institute in Medicine Hat this week.

Messrs C. F. Henry and Jim. Conquer are business visitors in Medicine Hat.

Mrs. G. Bowen is visiting relatives and friends in Calgary.

Mr. and Mrs. Robt. Conquer of Grassy Lake visited relatives in this place last week-end.

Born—To Mr. and Mrs. E. Thompson on Sunday, November 17th, a fine baby boy.

Messrs Anson and Frank Mutts are visiting relatives in this place.

Mrs. Emma Kenman was a business visitor in the Hat last week-end.

Mrs. F. H. Maine has returned to the homestead.

Mr. and Mrs. Basil Bretton have returned to their homestead.

Mrs. H. Norland is on the sick list.

The many little friends of Edwin Sedberg are glad to have him in their midst again.

Mr. and Mrs. H. Hansen were "Hat" visitors last week.

The Ladies' Aid of this district held their entertainment and sale on Wednesday evening which proved to be a great success both socially and financially. The proceeds of the sale which was better than \$30.00 will go towards a Christmas Entertainment.

Mr. and Mrs. Otto Gibson and Miss Pay Gibson were visitors in town Sunday.

Arthur McCullough returned from Grassy Lake Wednesday evening with a fine team of drivers, which he says with his new buggy and harness ought to make a dash. Now girls, wear your nicest saddle.

It is rumored that the G. T. expect to run a line through this district to make a dash. In the next year, but we are afraid it is only an aeroplane (air-ship) route.

## Newdale.

Sunday service—Preaching every first, third and fifth Sunday at 10.30 with Sunday School immediately following. Second and fourth Sunday's, no services at all.

The farmers are busy putting the finishing touches on buildings, machinery and houses, preparatory to winter's approach.

Plowing is discontinued of late on account of the frost. We can be thankful, however, for the late fall in which so much fall plowing has been possible.

We were thankful to learn of the fortunate escape of several of our acquaintances who chanced to be on the train wreck, four miles from Seven Hills, where they were not even hurt while others were hurt and a few killed.

## Bad Train Wreck at Seven Persons.

(Continued from page 1.)

Injuries of all kinds were sustained. All were more or less cut by the glass, many were internally hurt, and many limbs were fractured. No better evidence of the force of the crash can be seen than by the fact that the heavy coaches were hurled clear of

the right-of-way, past the fence and onto the prairie.

The worst scene of all, the most pitiful and lamentable, was at the engine.

Said to be Death.

Engineer James Galt, a veteran at the throttle, lay under the fire-box of his engine. He suffered a most terrible death, as did also his fireman, H. H. Flower.

No statement has as yet been secured as to the speed at which the train was travelling, other than the word "excessive" used in the official report. When it struck the switch, the engine careened and rolled completely over. The train broke loose and the baggage express mail car and coaches left the rails and rolled over.

Engineer Galt and Fireman Flower is likely, hardly knew what had happened before they were pinned down under their engine. The first of the passengers to reach the engine could distinctly, above the roar of the escaping steam from the big iron monster, clearly define the sounds of the dying engine men.

## Farmers! Test Your Grain.

Owing to the fact that climatic conditions have again been unfavorable in certain districts to the satisfactory maturity of seed grain, we wish to draw the attention of every farmer to the advisability of having his grain tested for germination.

Grain is particularly subject to injury by frost, and in certain stages of their growth are rendered worthless for seed purposes even though they may look perfectly plump and sound outwardly. Others again, though undoubtedly frozen, are not seriously affected in vitality. As a germination test is the only sure indication of the grain's condition in such cases, we would strongly advise having all doubtful lots tested.

Frost is also subject to injury by flux as well as moisture, and its vitality may be considerably lowered by these factors. Barley is affected likewise and often shows a low percentage of growth when cut after frost. Wheat, on the other hand, is much less liable to injury and will usually germinate readily even when frozen quite severely. It may, however, be rendered unfit for seed by frost or through excessive moisture.

Thoroughly cut after frost should be tested, as it is often greatly reduced in vitality. We should suggest having tested any other cereal or fodder seeds that may be suspected of not

being up to the full standard of germination.

In sending in samples to be tested the following points should be remembered.

(1). All samples are tested free of charge.

(2). Seed lots suitable for sending samples may be had on application to the Dominion Seed Laboratory, Calgary, Alta.

(3). About half such a bag full (1000 grains) is ample for a germination test.

(4). If possible samples should be cleaned before sending.

(5). Postage should be prepaid at the rate of 2 cents for 1 ounce and 1 cent for each additional 1 ounce.

(6). It is unnecessary to enclose stamps for a reply.

(7). The usual time necessary for a test is 10 days, but when a retest is made a longer period is required.

(8). All samples should be plainly marked with the name and address of sender, together with an identification designation when more than one is sent.

(9). All samples should be sent to the Dominion Seed Laboratory, Calgary, not to any individual member of the staff.

In addition to the above, this Department, when required tests any kind of cereal or fodder seeds for purity from noxious weeds. Samples sent in for such purposes should contain not less than one pound of the larger grains and two ounces of flax, grasses and clovers.

### Hockey.

Club will Construct Rink 75ft. by 175ft.

A meeting of the Hockey Club was held in the L.O.O.F. hall on Monday, November 26th, for the purpose of hearing the reports of the various committees. Vice-president J. W. Reid occupied the chair.

Messrs. Reid and Beattie reported that so far they have been unable to secure a suitable site for proposed rink.

Mr. Beattie reported that Mr. Bickel has given the club the privilege of using water from the well of the Gas Company.

Mr. Jamieson reported that the goods held by Mr. Cardno have been turned over to the club, and can be secured at any time the club requires same.

Mr. Cardno was accorded a vote of thanks for his kindness. Messrs. R. S. and H. E. Beattie moved and seconded that a committee of Messrs. Jamieson and Henderson be appointed to look after and secure a building for use as dressing room for proposed hockey club.

The Vice-president appointed R. H. Beattie to call all uniforms in for inspection.

Moved by B. L. Jamieson, seconded by H. E. Beattie, that a rate of \$3 for uniforms and \$5 for skates be charged for skating privileges on the pro-

posed rink, also that an additional fee be charged on hand nights or any special evening. Tickets to be issued to all wishing these privileges.

Moved and seconded that the proposed rink be 75 feet wide and 175 feet long.

R. E. Reid was appointed to interview Mr. Bickel regarding a dynamo, engine and wire to be used for lighting rink.

The next meeting will be held on Monday, December 2nd, in Gardner and Anderson's shop at 8 p.m.

### Better than the Best.

While it is generally admitted that The Family Herald and Weekly Star of Montreal, is the best family and farm's weekly paper printed, the Publishers are determined to make it still better. They are paying no expense to give their subscribers of 1913 bigger value than ever. Their beautiful picture, "Mother's Treasure", is a delightful subject for the home and it is safe to say that no one who receives a copy would part with it for double the money.

No mistake can be made in sending one dollar for that great weekly paper for 1913. Every subscriber gets the picture, "Mother's Treasure", size 8 1/2 by 10 inches, free. It is the biggest 10-page week offered to-day.
